

# Community Use of School Facilities and Grounds

**FREE SPACE**

## Rainy River District School Board is Offering FREE Space!

Through the Priority Schools Initiative, the Ontario Ministry of Education has provided support to selected school boards in order that not-for-profit groups may have free after-hours access to school facilities in communities that need it most. Fully subsidized use of school space will allow local not-for-profit organizations to offer affordable or no-cost programming at these schools.

The Ministry of Education has provided the Rainy River District School Board with Priority Schools Initiative funding for the following school:

## Atikokan High School

324 Mercury Avenue, Atikokan

### *Important things to keep in mind:*

- School-based activities take priority.
- Not-for-profit organizations are the only groups that qualify for fee use of space at the Rainy River District School Board's priority school.
- A permit request is required.
- Availability of space for a not-for-profit group is contingent on its eligibility and our approval process.

If you wish to apply for use of one of our schools, please visit the School Board's Community Use web page at [www.rrdsb.com](http://www.rrdsb.com).
