

## **Rainy River District School Board Recognizes Principals and Vice Principals**

(February 7, 2006) – The Rainy River District School Board is pleased to recognize the contributions made by its school principals and vice principals who inspire the learning of thousands of school children each day.

The future depends upon a well-educated society. Schools produce the next generation of professionals, political leaders, artists, educators, and others who contribute to a healthy and prosperous society.

The school principal, together with the vice principal, leads the school and is a critical component to its success.

The principals and vice principals are responsible for providing instructional leadership and professional management in our schools. They are critical to successful teacher performance and improved student achievement.

Rainy River District School Board principals and vice principals are vital in carrying out the Board's mission to empower all students to dream of the possibilities to believe in themselves and to achieve. As school leaders, all exhibit the blend of instructional and managerial leadership necessary to move their students and schools forward. The strategies they implement at school sites enable school communities to continuously improve teaching and learning.

They are the face of the school in their communities. Each principal and vice principal is responsible for fostering a dynamic partnership between the community and the school in order to create a positive learning environment for students.

The Board recognizes and appreciates the skills, dedication, and commitment of school principals and vice principals.

The monthly REACH (Recognizing Excellence And Consistent High Quality) program recognizes the outstanding commitment and achievements of Rainy River District School Board staff. The month of March will see recognition of the Board's secretarial staff.
