

<i>Rainy River District School Board</i>	SECTION 2 <i>Organization & Administration</i>
ACCESSIBILITY STANDARDS FOR CUSTOMER CARE – Notification of Disruption of Service	2.31
PROCEDURE	

PURPOSE

A disruption of service notice will be posted at the site and on the Board’s website when services that are normally provided to a person with a disability are temporarily unavailable.

RATIONALE

As members of the general public, people with disabilities may rely on certain facilities, services or systems in order to access the services of the school or board offices. If these services or systems are disrupted, people with disabilities require notice of this disruption.

GUIDELINES

- 1.1 Supervisory Officers, Principals/or Designate, Managers/Supervisors, Board Communications Officer will ensure that the users of board and school services are notified when there is a disruption in services that may have an impact on access to services by people with disabilities.
- 1.2 Escalators and elevators, for example, are important to people with mobility disabilities because that may be the only way they can access the premises. Other systems and services designed to meet the needs of people with disabilities can include accessible washrooms, amplification systems, and note-taking or TTY services. When those facilities or services are temporarily unavailable or if they are expected to be temporarily unavailable in the near future, a notice of disruption of service is required.
- 1.3 Generally, disruptions to all of the Board’s services, such as during a major storm or power outage, do not require this special notice. However, if the disruption has a significant impact on people with disabilities, a notice of the disruption should be provided.
- 1.4 Notice of Disruption of Services
 - Notice may be given by posting the information at a conspicuous place at or in the school or at or in board facilities. Other options that may be used include: posting on the board and/or school website; through direct communication with users of the services in accordance with school practices.
 - Consideration should be given to providing notice in multiple formats.
 - If the disruption is planned, notice should be provided in advance of the disruption. If the notice is unplanned, notice should be provided as soon as possible after the disruption has been identified

- The notice of disruption of service must include information about the reason for the disruption, its anticipated duration and a description of alternative facilities or services, if any, that are available.
