

What is the Science of Reading?

- The Science of Reading is a fundamental understanding of how we can help *all* students succeed in reading.
- The Science of Reading gives students explicit and direct tools to crack the reading code, increasing their engagement and motivation to learn to read.

When students feel success in reading, it fosters a love of reading

INQUIRY REPORT

RIGHT TO READ

Public Inquiry into human rights issues affecting students with reading disabilities

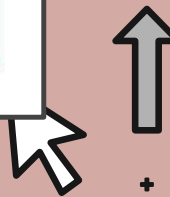

Ontario Human Rights Commission
Commission des droits de la personne et des droits de la jeunesse

RIGHT TO READ

"The inquiry is not just about an equal right to read – it is about an equal right to a future."

OHRC, RIGHT TO READ INQUIRY REPORT, FEBRUARY 2022

The Essential Components of

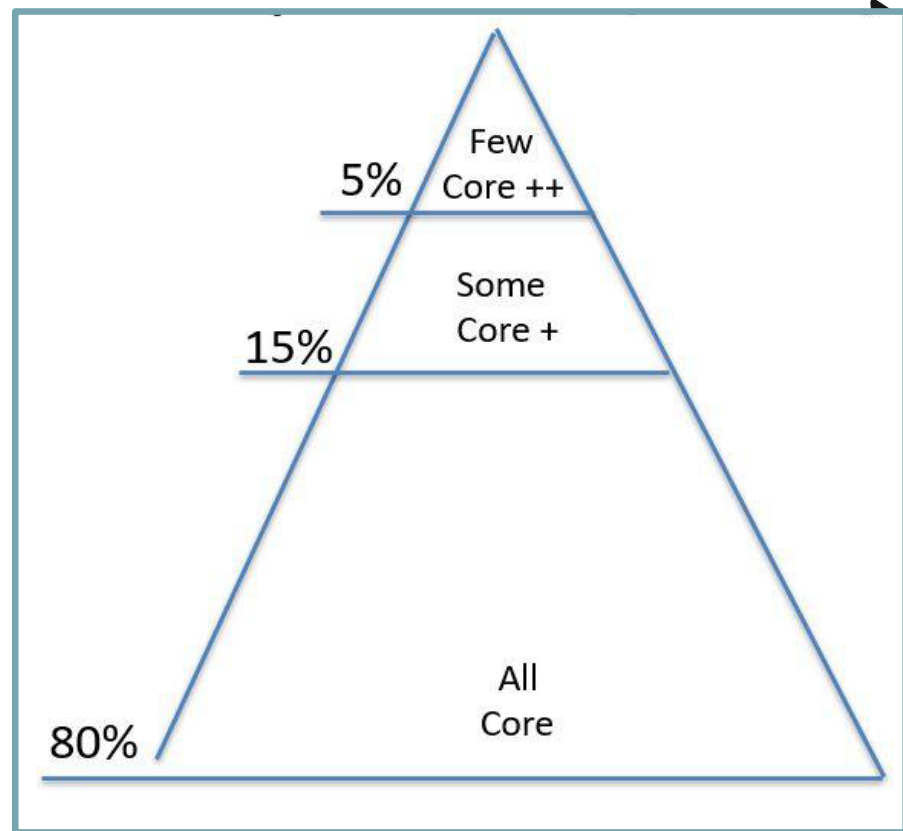

Early Literacy

Skill	Definition
Phonemic Awareness	Noticing, thinking about and working with phonemes (the smallest unit of spoken language)
Vocabulary & Oral Language	Understanding the meaning of words we speak, hear, read, and write
Phonics	Knowing relationships between sounds (phonemes) and letters (graphemes)
Oral Reading Fluency	Reading connected text accurately, fluently, and for meaning
Reading Comprehension + + + + +	Gaining meaning from text

Structures to Implement (MTSS)

3-Tiered Model of Prevention & Intervention

Do the best you can until
you know better.
Then when you know better,
do better.

-Maya Angelou
