

COLLECTIVE BARGAINING UPDATE

UPDATE – June 1, 2016

As we mentioned in our last update, the bargaining committees for the Board and the OSSTF met yesterday, May 31, 2016, with the assistance of the lead mediator for the province. It had been the Board's hope that we would be able to achieve a negotiated collective agreement during this time and end the current labour disruption.

Unfortunately, despite our best efforts, we were unable to achieve an agreement.

However, the Board is pleased that both bargaining committees left this exploratory discussion with a view to being open to continuing the dialogue.

We will continue to keep you apprised of any updates to collective bargaining with the OSSTF.
