Notice of Public Meeting on Facility Partnerships

Please be advised that the Rainy River District School Board will be holding its second annual public meeting on Facility Partnership opportunities on June 17, 2014, at 1:00 p.m. in Donald Young School, 57 Colonization Road, Emo, Ontario. The purpose of this meeting is to provide information regarding the potential for facility partnerships at the following identified locations, with interested organizations:

Emo: Donald Young School
Sleeman: McCrosson-Tovell School

The facility partnership is being offered at McCrosson-Tovell School due to under-utilized space within the existing school. Donald Young School is identified as a co-building project with a new classroom wing under consideration.

A copy of the Policy, 6.05 Facility Partnership, is available for download from the Board's website, www.rrdsb.com. Interested parties should check this website regularly for periodic updates, notices of future public meetings, how to apply to be an approved facility partner, and for information regarding existing facilities and/or future co-build projects identified for facility partnerships.

To submit an Application of Interest for Facility Partnership, please [click here](#).

To RSVP for this public meeting, or should you have any questions on facility partnerships, please contact:
